NEEDLES

Mesoram Micro-Injection Needles

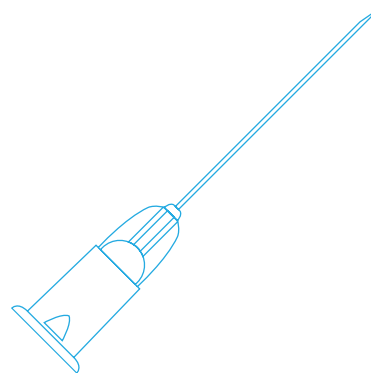

The classic Micro-Injection needles are available in sizes from 27G up to 33G. All our needles are suitable for syringes with Luer or Luer Lock attachment.

The medically refined steel gives the needles stability and due to the triangular grinding they stay sharp for around 10-20 injections.

These high quality needles and materials allow gentle penetration into the tissue with less hematoma and significantly reduced sensitivity to pain.

For the high-quality needles from Mesoram, we recommend three-piece syringes, which ensure jerk-free injections due to a smooth-running syringe plunger.

The thin diameters make this Micro-Injection needles excellent for sclerosant and collagen treatments.

Advantages

- Less painful treatment.
- Less tissue damage, with less visible areas of treatment (downtime).
- Wide range of needles for versatile applications.

Item no.	Variant	Size
710301	LUER / LUER LOCK	27g - 0,40 x 4 mm
710302	LUER / LUER LOCK	27g - 0,40 x 6 mm
712305	LUER / LUER LOCK	27g - 0,40 x 12mm
710207	LUER / LUER LOCK	27g - 0,40 x 12mm*
710303	LUER / LUER LOCK	30g - 0,30 x 4 mm
710307	LUER / LUER LOCK	30g - 0,30 x 6 mm
710306	LUER / LUER LOCK	30g - 0,30 x 13 mm
712318	LUER / LUER LOCK	30g - 0,30 x 13 mm**
712308	LUER / LUER LOCK	30g - 0,30 x 25 mm
712303	LUER / LUER LOCK	32g - 0,23 x 4 mm
712307	LUER / LUER LOCK	32g - 0,23 x 6 mm
712306	LUER / LUER LOCK	32g - 0,23 x 12 mm
812400	LUER / LUER LOCK	33g - 0,20 x 4 mm
812402	LUER / LUER LOCK	33g - 0,20 x 12 mm

* **Extra thin outer wall** facilitates injection of viscous fluids, such as hyaluronic acid.
Inner diameter 0.28 mm instead of 0.22 mm for the standard needle.
 Item no. 712305, 27g / 12mm.

** **Extra thin outer wall** facilitates injection of viscous fluids, such as hyaluronic acid.
Inner diameter 0.18 mm instead of 0.16 mm for the standard needle.
 item no. 710306, 30g / 13 mm

INJECTOR-PLATES

Injector-Plates from Mesoram

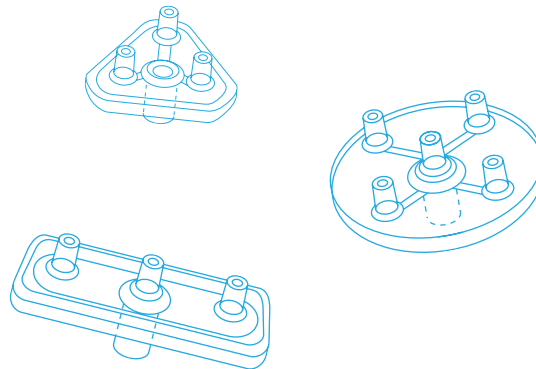

Mesoram Injector-plates are ideal for mesotherapy, hair treatment, cellulite or lipolysis that require multiple injections.

Injector-Plates have the advantage that they can be fitted with needles themselves. Depending on the indication, you can use different needle lengths (4mm to 25 mm) or diameters (27G - 30G).

Injector-Plates are available with 3, 5 and 7 prongs and in different shapes (linear, triangular/circular) and are equipped with a Luer Lock connection.

This allows up to 7 injections to be made simultaneously, what reduces the sensitivity to pain to the same level as a single injection.

The active ingredient can be applied quickly and also with little pain over a very large area.

Advantages

- Significantly reduces the sensitivity to pain.
- Many injections in a short time.
- Uniform application of active ingredient for a perfect result.
- Usable for different treatments.

50 pcs./box - individually packed disposable - ETO sterilized

Manufactured by: Ri.MOS s.r.l. - 41037 - Mirandola - Italy

MULTI-INJECTORS

Multi injectors from Mesoram

Our Multi-Injectors consist of the original Injector-plates from Mesoram and are already equipped with needles. They are ideally suited for fast, large-area and recurring indications.

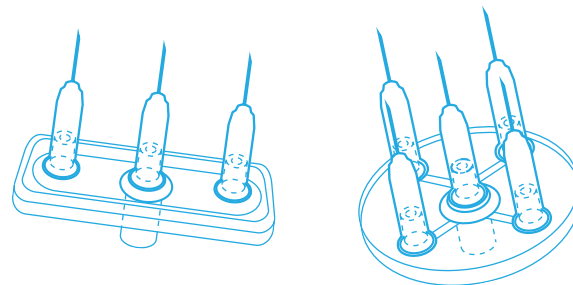

The Multi-Injectors are available in linear and circular with 27G or 30G needles.

The linear Multi-Injectors are available with 3 and 5 needles in 4mm and 6mm.

The circular Multi-Injectors are available with 5 and 7 needles in 4mm and 6mm.

Our Multi-Injectors attached with high-quality needles with precise grinding allow gentle penetration into the tissue with less hematomas.

Refined steel gives the needles stability what allows the Multi-Injectors from Mesoram to provide a perfect, low-pain injection result.

Advantages

- A lot of injections in a short time.
- Time saving - factor 5 with 5 needles.
- Evenly supplied injection fluid.
- Significantly reduces the sensation of pain.

Possible areas of application

- Local Anaesthesia
- PRP/Unicorn
- Hyperhidroses / MiraDry
- Mesotherapy

Item no.	Variant	Size
710201	LINEAR with 3 needles	27g - 0,40 x 4 mm
710202	LINEAR with 3 needles	27g - 0,40 x 6 mm
710215	LINEAR with 3 needles	30g - 0,30 x 4 mm
710210	LINEAR with 3 needles	30g - 0,30 x 6 mm
710205	LINEAR with 5 needles	27g - 0,40 x 4 mm
710206	LINEAR with 5 needles	27g - 0,40 x 6 mm
710214	LINEAR with 5 needles	30g - 0,30 x 4 mm
710209	LINEAR with 5 needles	30g - 0,30 x 6 mm
710203	CIRCULAR with 5 needles	27g - 0,40 x 4 mm
710204	CIRCULAR with 5 needles	27g - 0,40 x 6 mm
710211	CIRCULAR with 5 needles	30g - 0,30 x 4 mm
710212	CIRCULAR with 5 needles	30g - 0,30 x 6 mm
710207	CIRCULAR with 7 needles	27g - 0,40 x 4 mm
710208	CIRCULAR with 7 needles	27g - 0,40 x 6 mm
710216	CIRCULAR with 7 needles	30g - 0,30 x 4 mm
710213	CIRCULAR with 7 needles	30g - 0,30 x 6 mm
